

Building Committee

October 12, 2016 Hartland Consolidated School

Attendance ~ Jason Scholton, Fred Hickey, Chris Easton, Michael Hammer, Superintendent, Licia Goodridge, Denise Kimball, Building Principal.

Recommendations for G&M ~ Licia shared that she has collected St.Albans capital improvement information to be shared with the town. It needs to be placed in a document for them. No new big repairs have happened since our last meeting.

Report on Oak Point meeting ~ Licia listed the groups that met Oak Point on the 26th of September. It was a full day from 10 AM to 6 PM, then on to the fundraising group meeting at 6:30 PM. Oak Point answered all questions that staff and the fund raising group had. They reminded everyone that our project was being designed as a 100% state funded project.

Bus Garage clean up ~ Mr. Hammer informed the group that a storage trailer will be removed from the site. Licia shared an estimate of just under \$4,000.00 to install charging posts, a sub panel in the east end of the garage that would feed a circuit in the small white garage and a yard light. We would purchase material directly from CED to save money. Mr. Hammer noted that Dean would be digging the trench with equipment he has. The posts are not part of the estimate, but we would need (3) 8 foot pressure treated posts for the project. Driveway work will be done in 2 phases during this school year. A gutter will be installed on the road side of the facility to help with rain water control. The Committee selected the least amount of drive work for the year, due to budget constraints.

Other:

1. Mr. Hammer ~ The Committee needs to be thinking about where Alternative Education will be going when we consolidate. Jeff Giallombardo will be reporting to the Board about all of the good things his students are doing.
2. Mr. Hammer reported on the progress of the BAN and noted that the state has extended our timeline to July of 2017.
3. Mr. Hammer spoke with a USDA scientist that was working in the field that we currently lease to them. He offered the section of land that borders Newport Water District. The scientist seemed interested and will get back to us.

Meeting Schedule: Next meeting November 9th, 6:30 (proposing Newport Elementary) as the group didn't decide.

Respectfully submitted,

Licia Goodridge
Facilities Manager
