

MUTUAL ASSISTANCE – EMERGENCY PLAN

It is the belief of RSU 19 and the Board of Directors that the safe guarding of our students is a priority in the operation of our schools. This level of safety and crisis management extends beyond the borders of our communities and is shared by our neighboring districts.

In times of emergency or crisis, RSU 19 will offer and provide services including, but not limited to, counseling and staffing, transportation, shelter, and general labor with surrounding school districts. Such aid has been reciprocal and, if needed, surrounding school systems stand ready to assist one another.
