DISTANCE LEARNING PROGRAM

RSU 19 participates in distance learning in conjunction with a network of schools that uses real-time interactive technology to provide expanded educational opportunities to students and staff. This system enables schools to share course offerings, professional development, ideas and information regardless of the participants' geographic location. Distance learning is to be used for educational purposes consistent with the mission and goals of the schools. The Board and administration will consider and address distance learning opportunities and issues when reviewing and developing policies, preparing budgets, and planning for curriculum and professional development.

All participants in distance learning programs are expected to comply with applicable Board policies, procedures and school rules. Violations of Board policies, procedures and school rules may result in loss of privileges to use the facility or participate in distance learning programs, as well as disciplinary sanctions under the applicable policy or rule.

The Superintendent is responsible for implementing the distance learning program, although specific responsibilities may be delegated to administrators or other appropriate staff at the Superintendent's discretion.
